Optimal Dosing C

FEATURES

- A set of peristaltic pumps with a built in flush manifold. In this way it is only necessary to fit a hose to the washer

DESCRIPTION

Having an automatic supply of detergents in a vended establishment is an added value for your customers; an opportunity to wash the linen with highly effective and professional detergents.

FEATURES

- The assembly operates completely managed by the smart control of the Girbau washing machines. No additional controls are required for its use.
- The dosing system automatically adjusts the programmed dosing depending on the load in washing machines equipped with the JUST in LOAD function.
- A set of 3 peristaltic pumps, with a nominal flow rate of 15 litres/hour.
- A compact dosing system with the set of pumps in the same box. It can be fitted with more pumps on request.
- A peristaltic tube manufactured from EPDM. It can be supplied in other materials on request.
- PVC suction rods for drawing the chemical product from the container to the equipment.
- Suction rods with built in non-return valves and a level probe system.
- PVC lint collector in the GIRBAU OPTIMAL DOSING-C option.
- A PLUG & PLAY connection system. All the connections and elements required are supplied with the equipment to ensure that commissioning is quick and easy.

Optimal Dosing D

FEATURES

- A set of peristaltic pumps with direct input of detergent to the washer, with each detergent being delivered to the washing machine in a separate hose.

DESCRIPTION

Having an automatic supply of detergents in a vended establishment is an added value for your customers; an opportunity to wash the linen with highly effective and professional detergents.

FEATURES

- The assembly operates completely managed by the smart control of the Girbau washing machines. No additional controls are required for its use.
- The dosing system automatically adjusts the programmed dosing depending on the load in washing machines equipped with the JUST in LOAD function.
- A set of 3 peristaltic pumps, with a nominal flow rate of 15 litres/hour.
- A compact dosing system with the set of pumps in the same box. It can be fitted with more pumps on request.
- A peristaltic tube manufactured from EPDM. It can be supplied in other materials on request.
- PVC suction rods for drawing the chemical product from the container to the equipment.
- Suction rods with built in non-return valves and a level probe system.
- A PLUG & PLAY connection system. All the connections and elements required are supplied with the equipment to ensure that commissioning is quick and easy.

Optimal Dosing S

FEATURES

- A peristaltic pump specially designed for the automatic dosing of chemical products to washing machines.

DESCRIPTION

Dosing detergents using an automatic system eliminates the handling of chemical products and limits dosage errors.

FEATURES

- Individual pump for a single chemical products, with the possibility of fitting as many pumps as there are products used in the washing process.
- Equipment with microprocessor and display for performing the programming and calibrations that may be necessary.
- Dosing is carried out using a timer from 0 to 999 seconds.
- Offers the possibility of programming a safety time to avoid dosing with repetition of signals.
- A peristaltic tube manufactured from EPDM. It can be supplied in other materials on request.
- PVC suction rods for drawing the chemical product from the container to the equipment.
- Suction rods with non-return valves and a level probe system.
- A PLUG & PLAY connection system. All the connections and elements required are supplied with the equipment to ensure that commissioning is quick and easy.
